Just in case either of you have a role in fixing this. I am sending this to you.
Joanna is correct. The TO is actually still in place until 8/31/12 for Kemron. We will certainly have trailing costs. I heard a rumor of this from the FCA on Friday (my day off) and said I would check with Joanna today. I asked him to check with Joanna on Friday. However, I guess the de-ob rumor is true.
Since we were squeezed to the bone by HQ on funding on this site, I don't expect there will be anything left to do-obligate. So please (whoever had the authority) restore what was taken and we will let you know when we don't think there will be any more costs.
thanks.

Hi Marcie,
Apparently, there must have been some misunderstanding about funding de-obligations with respect to the subject contract TO. As you can see from Joanne's message below, the site was on recently de-mobilized and there are still outstanding invoices that may need to be paid.
Please let us know what, if any, steps we need to take to rectify this situation.
Thank you for your prompt attention to this matter.

Are they for real????? This site was literally just demobed on August 11 - FOUR DAYS AGO. I haven't reviewed the final 1900's or paid the final invoice yet. What are they thinking???
